FLEET AND TELEMATICS

DIAGNOSTICS

1. Navigate to the **Fleet and Telematics** section.

2. Click on a piece of equipment from the map or from the list on the right of the page.

3. On the Equipment Summary page, you will see **Diagnostics.**

4. Click the **See All** button, and a detailed view of the equipment's available Diagnostics metrics will display.

5. Examples of diagnostic data points include:

    a. Fuel Level

    b. DEF Level

    c. Battery Voltage

    d. Engine Load

    e. Oil Temperature

    f. Oil Pressure

    g. Coolant Temperature

    h. Fuel Consumption
